Passing Time

Bad Company

Well I finished fooling around with you pretty mama
Finished fooling around with you

No more wasting my time no more standing in line
And im a shiftin on back to where I once came from

You know I heard it in the news and it gave me the blues
You know I ain't right people are fighting every place I look
People uptight and everywhere
And I'm shifin on back to where I once came from

Ain't no lie ain't it too bad mama

Too bad you're gonna cry

You know I heard it in the news and it gave me the blues
You know I ain't right people are fighting every place I look
People uptight and everywhere
And I'm shifin on back to where I once came from

Ain't no lie ain't it too bad mama

Too bad you're gonna cry
