

Ghost In Your Heart

Bad English

A little white picket fence around your heart
It's everything you wanted
Now it's tearing you apart

You're gonna raise a family now
But you don't know where to start
I remember you

Me I pack a suitcase
And move from town to town
A little east of Eden, too late to turn around

Marionettes on wires
You dance out of control
I remember you

Are you crying in your sleep tonight?
When you're lying with him
Do you turn out the light?

Are you hiding in your dreams tonight
In your world?
I will be the ghost in your heart
The ghost in your heart

Well, you said you couldn't take it
You had to settle down
And I was the wild one with both feet off the ground

I could never understand you
But I loved you anyhow
I remember now

Are you crying in your sleep tonight?
When you're lying with him
Do you turn out the light?

Are you hiding in your dreams tonight
In your world?
I will be the ghost in your heart
The ghost in your heart, yeah

Something in the first kiss is written in the sand
We held it for a moment
But it slipped straight through our hands

I stare at your reflection
And sometimes see my face
I remember you, you remember too

Are you crying in your sleep tonight?
When you're lying with him
Do you turn out the light?

Are you hiding in your dreams tonight
In your world?

Are you crying in your sleep tonight?
Are you lying with him
Thinkin' 'bout me tonight?

Are you hiding in your dreams tonight
In your world?
I will be the ghost in your heart
The ghost in your heart

In your heart
In your heart
Ghost in your
