

# Possession

Bad English

Oh Yeah

I can't find myself  
When you go away  
Makes me wonder where you are  
Is there someone else  
I just need to know  
This charade has gone too far

For the first time in my life  
Feel I'm losing control  
I can't keep pretending  
It's my soul that you own  
I need you

My heart's in your world tonight  
(Possession)  
And you hold the key to my life  
(Possession)  
I've got to be with you  
I wanna dream with you  
You're my obsession  
I want possession of you

I can't play this game  
Am I in too deep  
Cause my world  
Is where you are  
You're always on my mind  
The little things you say  
I can feel you everywhere

The trace of your lipstick  
I can taste your perfume  
The note that you left me  
leaves a space in this room  
I need you

My heart's in your world tonight  
(Possession)  
And you hold the key to my life  
(Possession)  
I've got to be with you  
I wanna dream with you  
You're my obsession  
I want possession of you  
Oh Yeah

I can't live without you  
Can't you see that your mine  
I need you

Your heart's in my world  
(Possession)  
In your world  
In your world

Your heart's in my world tonight  
(Possession)  
And you hold the key to my life  
(Possession)  
I want possession of you every night  
I want possession of you for all my life  
I wanna walk with you  
(Possession)  
I wanna dream  
(Possession)  
(Possession)
