

Alright

Bad Nerves

Gotta have bad news to know a good time
Swimming on a rock
Any heart you held and any bad job
Spinning on a dart

No, I don't wanna live like I don't mind
No, I don't wanna live like I don't mind

Now that we know
We can work it out and everything will be alright
Alright, alright
Now that we know
We can work it out and everything will be alright
Alright, alright

Anything you felt that made you wonder
Watering your mind
Will you die in love?
Will you remember wasting all your time?

No, I don't wanna live like I don't mind
No, I don't wanna live like I don't mind

Now that we know
We can work it out and everything will be alright
Alright, alright
Now that we know
We can work it out and everything will be alright
Alright, alright

Now that we know
We can work it out and everything will be alright
Alright, alright
Now that we know
We can work it out and everything will be alright
Alright, oh!

For all of the girls, all of the lost boys
I'll be here
To all of the world, love is a feeling you make
I will be here for you
