

## Don't Stop

Bad Nerves

Breakdown, motorways, cocaine, don't stop

Why?

Logos, policy, children of medication

Why?

Don't stop, hurricane, radio DJ - who's to blame?

Why?

Record freedom, liberty, rain in the sky

I like the way you fly

Culture murderer, do it all and they take your money

Futile governments, do it all and they take your money

But it's alright, everything is okay

'Cause I got you, and you've got me

Yeah, it's alright, everything is okay

'Cause I got you and they could never work it out

How do I know? 'Cause I feel it in my soul

Then I knew I wanted to fall in love with you

A second time

Then I knew I wanted to fall in love with you

And kill this time

Kill this time
