

## Wasted Days

Bad Nerves

I'm alone here, but you are on my mind  
I know I will not find much better  
But I let you go and I wish I never had  
Yeah, I know I could be much better  
But I know now for next time

As I lay here, without you by my side  
I don't know if I can forget her  
Gotta let you go, I don't have the time  
To waste my mind on feeling blue now

I'm giving up on the wasted days  
I'm giving up on you, you're giving up on me  
Give it up for our wasted days  
I gave them all to you, you gave them all to me

What a nice ride, driving in our car  
How was I to know it's ended?  
What a bad surprise, I got nowhere to hide  
But goodbye, goodbye, it's really happening

I'm giving up on the wasted days  
I'm giving up on you, you're giving up on me  
Give it up for our wasted days  
I gave them all to you, you gave them all to me

Cause sometimes we all  
We just need a tougher reminder  
Cause sometimes we don't  
We don't see what's right in front of us

I'm giving up on the wasted days  
We're giving up this time, we got nowhere to go (oh!)  
Give it up for our wasted days  
We're giving up this time  
We've got better days to come
