

Dethrone

Bad Omens

Let me take you back to when I was killed and born again
Woke up in the light convinced my life had made it to its end
Burning up beneath the sun, while my father drained of blood
If he's there I've got a message for the man that's up above
Fuck you

If he's home I've got a message from below

Getting out is not enough if nobody else can come
If he's home I've got a message for the man above

Here am I - take me to the pearly gates
So I can look you in the eye when I spit in your face
Here am I - take me to the pearly gates
Don't let 'em hit you on the way out when I take your place

Did you think you could dig deep enough to bury me?
It's over when I say and you're not getting rid of me
So walk into my fire or step into my light
Either way it's gonna burn if you don't make this right

If he's home I've got a message from below

Here am I - take me to the pearly gates
So I can look you in the eye when I spit in your face
Here am I - take me to the pearly gates
Don't let 'em hit you on the way out when I take your place

Dead meat

Getting out is not enough if nobody else can come
If he's home I've got a message for the man above

Here am I - take me to the pearly gates
So I can look you in the eye when I spit in your face
Here am I - take me to the pearly gates
Don't let 'em hit you on the way out when I take your place

Here am I - take me to the pearly gates
So I can look you in the eye when I spit in your face
Here am I - take me to the pearly gates
Don't let 'em hit you on the way out when I take your place
