

# Never Know

Bad Omens

Show me you're better off without me  
Choking on every word you said  
We'll see, we'll see  
Don't breathe another word about me  
I'll leave and you can finally rest in peace, we'll see

When I go out into the world  
I just don't like what I see  
You could call it Paradise  
But it looks just like Hell to me

Lying in between the memories choking me  
And I don't know which way to go  
But I'm okay to never know  
Lying in between the memories choking me  
And I don't know which way to go  
But I'm okay to never know

Speaking in languages we can't read  
No need for you to spell it out for me, for me  
Swallowed up and I spit you out  
Like a drug that just wouldn't stay down, stay down

When I go out into the world  
I just don't like what I see  
You could call it Paradise  
But it looks just like Hell to me

Lying in between the memories choking me  
And I don't know which way to go  
But I'm okay to never know  
Lying in between the memories choking me  
And I don't know which way to go  
But I'm okay to never know

We'll see, we'll see  
Lying in between the memories choking me  
And I don't know which way to go  
And I'm okay to never know

Lying in between the memories choking me  
And I don't know which way to go  
But I'm okay to never know  
Lying in between the memories choking me  
And I don't know which way to go  
But I'm okay to never know

We'll see  
But I'm okay to never know  
We'll see  
But I'm okay to never know
