

## Said & Done

### Bad Omens

Old friend, don't you see me  
With my soul on my sleeve and my heart left to beat underground?  
Don't you leave me  
With the hope and belief that you're coming for me

Was I not good enough? Worthy of being loved?  
Were you ashamed or just afraid?  
Well, when I've given up and all is said and done  
Will you just look the other way?  
Was I not good enough? Worthy of being loved?  
Were you ashamed or just afraid?  
Well, when I've given up and all is said and done  
Will you just look the other way?

Half dead, barely breathing  
Fell apart just to keep my head up in one piece till I'm found  
Well, I'm sinking  
To the floor of the sea where you want me to be

Was I not good enough? Worthy of being loved?  
Were you ashamed or just afraid?  
Well, when I've given up and all is said and done  
Will you just look the other way?  
Was I not good enough? Worthy of being loved?  
Were you ashamed or just afraid?  
Well, when I've given up and all is said and done  
Will you just look the other way?

I waited, but nobody called  
I waited for nothing at all

Was I not good enough? Worthy of being loved?  
Were you ashamed or just afraid?  
Well, when I've given up and all is said and done  
Will you just look the other way?

Was I not good enough? Worthy of being loved?  
Were you ashamed or just afraid?  
Well, when I've given up and all is said and done  
Will you just look the other way?

I waited, but nobody called  
I waited for nothing at all

I'd rather die young than die alone  
Overdosing to songs you wrote  
Poise and potions is all I know  
When the world's a stage and I'm just a show
