

Somebody else.

Bad Omens

You said enough
You never loved the thought of us
You're too good to be true, yeah
I gotta go, gotta run
You don't want me the way that I want you, no

You walked too close to the rails
I picked you up when you fell
How can you live with yourself?
You're lost, but I couldn't tell
Fooled me, and you did it well
Thought you were somebody else

No way to right these wrongs
Either way I'm feeling, it might just cost something in the mil
lions
I know that I can't resist
You know I can't just stop
But I don't wanna hear every night you're off walking on the ce
iling
Thinking about what you did

You walked too close to the rails
I picked you up when you fell
How can you live with yourself?
You're lost, but I couldn't tell
Fooled me, and you did it well
Thought you were somebody else

I know we said that sex isn't love, but it seems like enough fo
r us
I know we said that we're having fun, but I'm getting too numb
to your touch

You walked too close to the rails
I picked you up when you fell
How can you live with yourself?
You're lost, but I couldn't tell
Fooled me, and you did it well
Thought you were somebody else
