

THE DRAIN

Bad Omens

Old friends
Same disease
I'm killing myself again

Old friends
Same to me
I can't get away from it
Old friends are just a memory...
That I didn't need

I can't be saved
Reaching for the life we threw away
Watching as it circles in the drain
With everything I loved, that's gone to waste
With everything I was but couldn't change

Old friends
Same disease
I can't get away from it

Old friends
Same as enemies
I'm killing myself again
I'm killing myself again
I'm killing myself

I can't be saved
Reaching for the life we threw away
Watching as it circles in the drain
With everything I loved, that's gone to waste
With everything I was but couldn't change

We're bored when we're sober again
But miserable when we're not
We're bored when we're sober again
But what else have we got

I can't be saved
Reaching for the life we threw away
Watching as it circles in the drain
With everything I loved, that's gone to waste
With everything I was but couldn't change

I can't be saved
Reaching for the life we threw away
Watching as it circles in the drain
With everything I loved, that's gone to waste
With everything I was but couldn't change
We're bored when we're sober again
But miserable when we're not
