Ami              F
Like a rock, like a planet,
G                    C
like a fucking atom bomb,
      Ami                           F
I'll remain unperturbed by the joy and the madness
      G                       E
that I encounter everywhere I turn

                   Ami
I've seen it all before
            F
In books and magazines
                      C
like a twitch before dying
                    G
like a pornographic sea

                           Ami
There's a flower behind the window
                          F
there's an ugly laughing man
                    C
like a hummingbird in silence
                    G
like the blood on my door

          Ami
It's the generator

Ami      F       G                   C
Oh yeah, oh yeah, like the blood on my door
Ami              F
wash me clean and I will run
G                E
until I reach the shore

                   Ami
I've known it all along
                        F
like the bone under my skin
                 C
like actors in a photograph
                  G
like paper in the wind

                      Ami
There's a hammer by the window
                    F
there's a knife on the floor
             C
```

```
like turbines in darkness
                          G
like the blood on my door

            Ami
It's the generator
