

World War III

Bad Religion

US government blew its plans
Too much money down the can
look and listen to what the president says
The first lady's a fucking lez
They think they know it all.
America, China's about to fall
Lethargicism will overrule us
US government's wading pool
World War III (5x)
"Forget it" came from the presidents door
I'll make us have another world war
It doesn't matter what the people think.
We have to save our precious brink
Here I go I'll push the bomb.
It's headed straight for Guam.
All the rest will release soon
Into your living room
World War III (5x)
