

# Just Like Magic

Bad Suns

Just like magic, ecstasy  
There's thunder in the canyon  
Lightning in the street  
There's magic all around us  
Can everybody feel it but me?

Life's not great  
Out on an expiration date  
Glass empty, too much on her plate  
This isn't for me

Worlds apart  
A waste of space among the stars  
Like waking up at three, a false start  
At the best part of the dream

Check, please  
She just walks out  
Nothing left to talk about  
Light one up and pour one out  
Blowing in the breeze

Just like magic, ecstasy  
There's thunder in the canyon  
Lightning in the street  
There's magic all around us  
Can everybody feel it but me?

One more tragic fantasy  
Like living in a nightmare  
Someone else's dream  
There's magic all around us  
Can everybody feel it but me?

I can't stop  
The Rainbow  
Then it's On The Rox  
As classy as a Felix clock  
I get sick on the street

Blend in with the try-hards  
Down on Sunset Boulevard  
Barney's, where the dinosaurs  
Are drinking with the teens, oh no

Just like magic, ecstasy  
There's thunder in the canyon  
Lightning in the street  
There's magic all around us  
Can everybody feel it but me?

One more tragic fantasy  
Like living in a nightmare  
Someone else's dream  
There's magic all around us  
Can everybody feel it but me?  
Can everybody feel it but me?

Just like magic  
Just like magic

One more tragic fantasy  
Like living in a nightmare  
Someone else's dream  
There's magic all around us  
Can everybody feel it but me?  
Can everybody feel it but me?
