

# Starjumper

Bad Suns

The windmills of your mind  
The windows and the night  
Wide open  
A jet black summer sky  
A setback in my life  
I'm hopeless  
That glimmer in your eye  
Like Paris in July  
I notice  
Yeah  
And the streets all come alive

I'm floating away  
Over the car lights  
I'm floating away  
Glowing in starlight

My friends all wonder why  
Yet no one takes the time  
To ask me any questions  
I read between the lines  
Of symbols in the sky  
I'm happy, any questions?  
I leave this world behind  
As I ascend a moonbeam pathway  
And the streets all come alive

I'm floating away  
Over the car lights  
I'm floating away  
Glowing in starlight  
Time will not let me stay  
Staying up all night  
All night  
Glowing in starlight  
Alright  
Starjumper comes alive

Oh, there was dancing in the streets  
Just like how we used to be  
Faces smiling up at me  
Now I'm free

I'm floating away  
Over the car lights  
I'm floating away  
Glowing in starlight  
Time will not let me stay  
Staying up all night  
All night  
Glowing in starlight  
Alright  
Starjumper comes alive

Staying up all night  
All night, yeah  
Glowing in starlight

Alright  
Starjumper comes alive
