

Sleepless nights aren't new to me  
All these thoughts are killing me  
Someone come & put me to ease -  
All of my anxiety, there's no cause that I can see  
What's this scratching out my brain!

And I can't stop even if I wanted to  
Up top, maybe I'm simply deluded -  
That's right, maybe I've been wasting my time  
All my time  
And it's hard to justify what you can do  
I'm so sick & tired of falling through  
And it's true, maybe I've been wasting my time  
All this time, ye!

Come creeping, no one can hear you now  
Listen so you can show me how  
Something that I'm missing here -  
Softly, stab my evil dreams  
Faster, help me fall asleep  
No one knows, that's how it goes  
All the thoughts that we transpose

And I can't stop even if I wanted to  
Up top, maybe I'm simply deluded -  
That's right, maybe I've been wasting my time  
All my time  
And it's hard to justify what you can do  
I'm so sick & tired of falling through  
And it's true, maybe I've been wasting my time  
All this time, ye!

And I can't stop even if I wanted to  
Up top, maybe I'm simply deluded -  
That's right, maybe I've been wasting my time  
All my time  
And it's hard to justify what you can do  
I'm so sick & tired of falling through  
And it's true, maybe I've been wasting my time  
All this time, ye!

From time to time, we fall in time  
But now it seems that we are blind  
No one knows, that's how it goes -  
All the thoughts that we transpose
