

I'll Be There

Bad Wolves

I've dug these graves and laid with the brave
But the better part of me of course was a slave
I've seen bands on bands makin bitches all dance
And I wonder the way they b-b-b-behave

They say jump
You say how high
They scream trump
You fucking just cry
And it's like click click click at the firing range
It's just another nigga begging for change

I'm coming up
I don't care
Not giving up
This I swear
So give it up
Don't be scared
Step by step
I'll be there
We're coming up

I've rolled 4, 5, 6 with the flick of a wrist
It's just indicative vibes remain clear
It's like look who's shook 'cause I rewrote the book
But you niggas never conquered your fears

And you're afraid-fraid
You'll need be made
Because your deep inner voice has retired
You're a day late
A dollar short
And your time at the top has expired
I'm coming up

This life is unpredictable
There's something inexplicable
When you get back up up up up up up up

I'm coming up
I don't care
Not giving up
This I swear
So give it up
Don't be scared
Step by step
I'll be there

I'm coming up
I don't care
Not giving up
This I swear
So give it up
Don't be scared
Step by step
I'll be there
We're coming up

This life is unpredictable
There's something inexplicable
When you get back up up up up up up up

I'm coming up
I don't care
Not giving up
This I swear
So give it up
Don't be scared
Step by step
I'll be there

I'm coming up
I don't care
Not giving up
This I swear
So give it up
Don't be scared
Step by step
I'll be there
We're coming up
