

Reaching out give me a lifeline  
I don't know if I can carry this on my own  
I don't know if I can carry this on my way  
Carry this on my own

In our hiding, tension traps our lives  
Like a critic's life to put on trial  
The strain remains the same  
You hold your own acclaims  
My last words don't die on the vines

I don't know if I can carry this on my own  
I don't know if I can carry this on my own

Reaching out give me a lifeline  
I don't know if I can carry this on my own  
Living lost can last a lifetime  
I don't know if I can carry this on my own  
I don't know if I can carry this on my own

It's dwelling, call it deep insight  
When the best no longer tries to fight  
The sweetest sugar swoon  
The darkest side of moons  
So my last words will be your limelight

I don't know if I can carry this on my own  
I don't know if I can carry this on my own

Reaching out give me a lifeline  
I don't know if I can carry this on my own  
Living lost can last a lifetime  
I don't know if I can carry this on my own  
Carry this on my own  
Carry this on my own  
Carry this on my own  
I don't carry this on my own

Give me a sign

Reaching out give me a lifeline  
I don't know if I can carry this on my own  
Living lost can last a lifetime  
I don't know if I can carry this on my own  
Carry this on my own  
Carry this on my own  
Carry this on my own  
I don't carry this on my own...
