

## Move On

## Bad Wolves

Withdrawn  
I didn't think it'd be so hard with  
You gone  
My mind is overwhelmed by  
The songs  
We always listened to  
It breaks my heart, but I'll get through  
I'll always treasure thoughts of you

We've tried so hard  
To forget our past  
These pictures in our mind is all we'll ever have  
But move on, move on, move on  
Just move on

All  
My memories escaping me  
It shouldn't be so hard  
To understand  
We don't have long to just end up so  
Scarred  
We say goodbye, but not for long  
Just always try to  
Take account for the little time we have

We've tried so hard  
To forget our past  
These pictures in our mind is all we'll ever have  
But move on, move on, move on  
Just move on

I know we've seen it all  
We've pushed our way through the pain  
Our lives are open, we begin again  
But move on, move on, move on  
Just move on

I thought you'd never leave my side  
Broke me the day you fucking died  
I hope you understand, I'm doing everything I can  
Memories and photographs  
It's over now, I can't believe

We've tried so hard  
To forget our past  
These pictures in our mind is all we'll ever have  
But move on, move on, move on  
Just move on

We've tried so hard  
To forget our past  
These pictures in our mind is all we'll ever have  
But move on, move on, move on  
Just move on

I know we've seen it all  
We've pushed our way through the pain

Our lives are open, we begin again  
But move on, move on, move on  
Just move on
