

Inside her eyes, a light that shines  
Like diamonds in a violet sky, our paradise  
I can't recall the world before she died

Now we're all alone  
Inside on our own

Don't you, don't you realize  
You're prey, safe in paradise  
Don't you know that I've found a way to make you stay  
Don't you, don't you realize  
Can't stay safe in paradise  
Don't you know I found the way you misbehaved

Her body lies, now run and hide  
They're searching but they'll never find  
Her distant cries  
She can't recall before I took my prize

Now we're all alone  
Inside on our own

Don't you, don't you realize  
You're prey, safe in paradise  
Don't you know that I've found a way to make you stay  
Don't you, don't you realize  
Can't stay safe in paradise  
Don't you know I found the way you misbehaved

Misbehaved  
Like a personal slave  
Misbehaved  
Like a personal slave

Inside her eyes  
I can't recall the world  
Before she died

Don't you, don't you realize  
You're prey, safe in paradise  
Don't you know that I've found a way to make you stay  
Don't you, don't you realize  
Can't stay safe in paradise  
Don't you know I found the way you misbehaved
