

Run for Your Life

Bad Wolves

Run

Breaking my back until I can't even stand
I'm working my hands until my callouses bled again
I'm breaking my back for the man
I'm living like this is the end
Last chance it's time to dance

Run for your life
I see the enemy
Run for your life
And it's a part of me
Run for your life
Cattle humanity
Programmed inside of me
Freedom's a lie
Run for your life

Look at our time and wonder where it was spent
Working our lives until we can't recognize ourselves
I'm breaking my back for the man
I'm living like this is the end
Last chance it's time to dance

Run for your life
I see the enemy
Run for your life
And it's a part of me
Run for your life
Cattle humanity
Programmed inside of me
Freedom's a lie
Run for your life

Run for your life

Consequences of living in a lie
Is paid with time
Consequences they will arise
Arise

Run for your life
I see the enemy
Run for your life
And it's a part of me
Run for your life
Cattle humanity
Programmed inside of me
Freedom's a lie
Run for your life

I want you to consume me now
I don't care how
Because the only time is now
(Run for your life)
Won't you consume me now
Don't care how

Because the only time is now
(Run for your life)

Run for your life
