

## Toast to the Ghost

Bad Wolves

Breaking the lines and bury what's coming  
This common sense you're ignoring  
Cuz you're next up to fall out with not dealing  
With all the doubt you still are not facing  
Forget the world's reaction to this  
Chemical attraction that I've  
Always known but never could savor  
Press play repeat then start the cycle  
That's been feeding on me  
Everyday I keep digging a deeper grave

In God we  
Mistrusted  
The truth left  
All of us disgusted

A toast to the ghosts in our home  
Still alive  
Gave all they had for a flag  
But the dream has died  
But the dream has died

I take it you've said enough  
No thank you for warning us  
So obvious my mistake  
You think that I won't give up  
I've gone and I've had enough  
So what I've left miles away

In God we  
Mistrusted  
The truth left  
All of us disgusted

A toast to the ghosts in our home  
Still alive  
Gave all they had for a flag  
But the dream has died  
But the dream has died  
But the dream has died

In God we  
Mistrusted  
In God we  
Mistrusted
