

# Truth or Dare

## Bad Wolves

So much pressure it makes you sick  
Scabs on your skin that you just can't itch  
On the back of your tongue with a mouth full of sand  
Beg for attention, trace of respect

You've got it all in place  
Keeping me away  
Now its time to play

Because truth or dare  
I can't change the fact that I  
Fuels your stare  
Is getting closer  
Truth or dare  
I can't change the fact  
That I need you here  
So come on over

So much pleasure your body aches  
Lips on your skin till it makes your shake  
In a room full of crosses where do we begin  
Welcome to detention repent for your sins

You've got it all in place  
Keeping me away  
Now its time to play

Because truth or dare  
I can't change the fact that I  
Felt your stare  
Is getting closer  
Truth or dare  
I can't change the fact  
That I need you here  
So come on over

Away your walls they fall  
And crumble at your feet  
So fall asleep and know that I'll be here  
Yeah!

Because truth or dare  
I can't change the fact that I  
Felt your stare  
Is getting closer  
Truth or dare  
I can't change the fact  
That I need you here  
So come on over
