

Turn It Down

Bad Wolves

I fade into the background once again
Just like I'm on the outside looking in
Sometimes the world inside is deafening, oh, oh, oh
Won't let you know the static gets to me
Can't let you be the one who brings me to my knees
The constant question, what could bring me peace? Oh, oh, oh

A little bit longer, I wish I was stronger

It's way too loud
Turn it down 'fore my ears bleed out
'Cause I can't stand the sound
Turn it down, down, down
'Cause I can't hear above the noise
It's way too loud, loud, loud
Turn it down 'cause I can't stand the sound
Turn it down, down, down
It's deafening and I just want out

The solitary space I seek refuge in
Would rather hold it back than to let you in
Coincidences, faces wearing thin, oh, oh, oh
Won't let you know the static gets to me
Can't let you be the one who brings me to my knees
The constant question, what could bring me peace? Oh, oh, oh

A little bit longer, I wish I was stronger

It's way too loud
Turn it down 'fore my ears bleed out
'Cause I can't stand the sound
Turn it down, down, down
'Cause I can't hear above the noise
It's way too loud, loud, loud
Turn it down 'cause I can't stand the sound
Turn it down, down, down
It's deafening and I just want out

It's way too loud
Turn it down 'fore my ears bleed out
'Cause I can't stand the sound
Turn it down, down, down
'Cause I can't hear above the noise
It's way too loud, loud, loud
Turn it down 'cause I can't stand the sound
Turn it down, down, down
It's deafening and I just want out
