

## Wildfire

## Bad Wolves

Do we build all our walls up  
Just to burn them down  
Are we trapped in a fire  
That we built ourselves  
When all the pain is pushed away  
We hide behind our eyes  
No wonder that we're barely getting by

Caught in a wildfire  
We keep running away  
No ones saving the day  
Wildfire  
We keep waiting for rain  
We've got only ourselves to blame  
(Only ourselves to blame)  
(Only ourselves to blame)

Does it all seem to follow  
Like a beautiful sound  
We're surrounded with sirens  
So lost and not found

So  
We'll never be enough (no no)  
We'll never be enough

Wildfire  
We keep running away  
No ones saving the day  
Wildfire  
We keep waiting for rain  
We've got only ourselves to blame

We keep hoping and praying  
But there's nothing to save  
There is no going back  
If we don't change our ways

We keep hoping and praying  
But there's nothing to save  
There is no going back  
If we don't change our ways

Wildfire  
We keep running away  
But no ones saving the day

Wildfire  
We keep waiting for rain  
We've got only ourselves to blame

We keep hoping and praying  
But there's nothing to save  
There is no going back  
If we don't change our ways

Wildfire

We keep running away  
We've got only ourselves to blame
