FEEL LIKE ME

badchieff

Nighttime, I'm still up, just be friend [?]
I can never be [?]
Feels like I've been here before
But it can be so unusual
On my single nights
I reach the stars

I take my medicine, I fall asleep with just my dreams, yeah
Sing my melodies and feel like me when I believe, yeah

(Ooh-ooh)
(Ooh-ooh)

Take my medicine, I fall asleep with just my dreams, yeah
Sing my melodies and feel like me when I believe, yeah

All I want is do all I want
Fuckin' lonely when I don't want no one
Feel so humble, feel like Cobain
I don't care what to do when it all ends
And I, I, I
[?] what I want, I wanna live so free

So I take my medicine, I fall asleep with just my dreams, yeah
Sing my melodies and feel like me when I believe, yeah
Take my medicine, I fall asleep with just my dreams, yeah
Sing my melodies and feel like me when I believe, yeah
