

# I Got You

Badfinger

No time like the present  
No good looking back  
No lives like the future  
No bugs in my path

'Cause I got you, you, you, you  
'Cause I got you

Don't need no reflection  
Don't analyze my feel  
I found my perfection  
Got all that I need

Yeah, 'cause I got you, you you you  
'Cause I got you

You're all that I'm after  
And all you can be  
You call when I answer  
You fall when I plea

You're all that I'm after  
And all you can be  
You call when I answer  
You fall when I plea

No time like the present  
There's no good looking back  
No lives like the future  
No bugs in my path

'Cause I got you, you you you  
'Cause I got you  
'Cause I got you  
You, you, you

'Cause I got you, you, you, you  
'Cause I got you, you, you, you  
'Cause I got you, you, you, you  
'Cause I got you, you, you, you  
'Cause I got you
