Die

Badflower

You think you're righteous, your body and soul
Your faith in Jesus, but no self-control
And if deplorable is moral 'cause it's what you're told
Then take your bible and swallow it whole (Hahaha)
I'm sick of losin', no I can't pretend
Burned the election, they've trumped us again
Manipulate the population, can we just ascend?
Impeach the asshole, and all of his friends

Die
Like everything that you ate
Like the American dream
Like everybody I hate
So just die
Everyone out of the way
Because we want life
Fuck you

Your selfish living, you poison the air
But steak is tasty, so why should you care?
Condemn the scientist and listen to the billionaire
You're such a sucker, you're so unaware (Ah!)

Die
Like everything that you ate
Like the American dream
Like everybody I hate
So just die
Everyone out of the way
Because we want life
Fuck you

Ahahahaha!
Fuck you, Donnie boy!
No, ya really don't care what it feels like
Throw 'em under the bus 'cause it pays right
Get his head and the fed
Shoot 'em dead, like taking it back
Let's kill 'em all

Die
Like everything that you ate
Like the American dream
Like everybody I hate
Die!
Everyone out of the way
Because we want life
Fuck you

Fuck you!
F-f-f-fuck you!
We want life, fuck you!
