

Murder Games

Badflower

How can we live with each other
How can we face one another
Heavy is the sound of the slaughter
So save another bite for your daughter

You murder
Games
(Murder games, murder games)
(Murder games, murder games)
(Murder games, murder games)
(Murder games, murder games)

How can we lie to each other
When are we gonna question the matter
That everyone we love has cancer
But nobody can swallow the answer

You murder
(Murder games, murder games)
(Murder games, murder games)
(Murder games, murder games)
(Murder games, murder games)

Why father, why father
Why bother? Why murder?
Why father, why father
Why bother? Why murder
(Murder games, murder games)
(Murder games, murder games)
(Murder games, murder games)
(Murder games, murder games)

How can we live with each other
How can we torture mother
Are we just gonna feast while they suffer
And we don't have to sanction the slaughter
Over and over, one after another

Why father, why father
Why bother? Why murder?
Why father, why father
Why bother? Why murder
(Murder games, murder games)
(Murder games, murder games)
(Murder games, murder games)
(Murder games, murder games)

They must look at us like we are devils
We cut things off their bodies
We cut the beaks off of hens
We rip the testicles out of baby pigs when they're born
We cut them up into pieces
What humans do to animals is completely evil

Why father, why father
Why bother? Why murder?
Why father, why father

Why bother? Why murder
(Murder games, murder games)
(Murder games, murder games)
(Murder games, murder games)
(Murder games, murder games)
