

Only Love

Badflower

Calm down, I'm okay
It's only heartbreak
Don't scheme, just mourn

The cold nights in our bed
When you'd steal the blankets
I'd let you sleep warm

It's only love
It's not like I'm missing part of me
It's only love
It's heartbreak and I'm in recovery
Your eyes are better than my favorite song
I'm addicted and I'm possessive
This is no ordinary love

Calm down, breathe in
I feel like I'm dying
I miss you, come home

But it's only love
It's not like she's bleeding out of me
It's only love
I'm not dying, I'm in recovery
But I won't get better
I'm not letting go
I will be right here where you left me
Losing my home again

A life without my friend
Who I depend on, oh
She's everything to me

The best I had, the worst mistake
I'm all fucked up and I'm not okay
Even my therapist said to hell with this
I'm not healing

I'm dying, write me off
I'm stuttering, I'm high on drugs
Loser, lonely

It's only love
These wrist cuts won't bleed it out of me
It's only love
I'm not dying but I'm in recovery
I won't get better
I'm not moving on
I'm the same way now that you left me
This is no ordinary love
