Oh-oh  
Oh-oh  
Oh-oh  
Oh-oh

I took my chances on you  
When I came to your rescue  
I was so anxious before  
I don't feel scared anymore  
And if I die before you  
I'll leave your toys and your food  
Don't keep your head on the floor  
You've got a lot to live for

And you could never know  
It was your time to go  
To see an angel fall (When you fall from above)  
I'm all out of love  
I'm all out of love since she's gone  
(I'm all out of love since she's gone)

I knew one day this would end  
Hoped I'd be as strong as I am  
Comforting my only friend  
Holding her paws in my hand  
And as we lay on the ground  
I feel your breath slowing down  
Just close your eyes and be still, I'm right beside you  
I am all out of love (I'm right beside you)  
I am all out of love, but I can't stop this grieving  
Now she's gone (Oh-oh)

And you could never know  
It was your time to go  
To see an angel fall (When you fall from above)  
I'm all out of love  
I'm all out of love since she's gone  
And I was not prepared  
For you to leave me there  
To see my angel fall (When you fall from above)  
I'm all out of love  
I'm all out of love since she's gone

All out of love  
I am all out of love  
I am all out of love  
I am all out of love  
But I can't stop this grieving  
And now she's gone  
Oh-oh

And you could never know  
It was your time to go  
To see an angel fall (When you fall from above)  
I'm all out of love  
I'm all out of love since she's gone (Oh-oh)  
And I will start again

Like you were never there  
I see my angel fall (When you fall from above)  
I'm all out of love  
I'm all out of love since she's gone (Oh-oh)
