Stalker

Badflower

Stalker, stalker
One day I'll probably fucking kill her, kill her
'Cause if she ever got to know me, know me
She'd probably think I'm fucking crazy, crazy

Yeah, another fucking psycho, psycho
I'm just another fucking freak show, freak show
Nobody's ever gonna love me, love me
I think I need to fucking let go, let go

So what? I'm good for nothing?
You stupid bitch, I bet you never saw me coming
Am I supposed to be chill when Chad rails you?
His big cock, his big hands, his jawbone, his trust fund
His small brains and his intellect, oh yeah
Chad the high school quarterback
No class but he gets ass while freaks and outcasts
Like me get picked last and picked on in gym class

Stalker, stalker
One day I'll probably fucking kill her, kill her
'Cause if she ever got to know me, know me
She'd probably think I'm fucking crazy, crazy

Ooh, it's getting so damn hard to be so alone
Ooh, I pretend I'm with somebody I don't know

Kill all men, isn't that your mantra?
Feminist bitch, here let me fix it for ya
Kill all boys and kill all girls
Kill myself and kill the Western world
I'm an incel and it's hell, I should be in a cell
But oh well, they can't tell me from my own self
I'm not sorry for the things that I've done
I blame everybody else for the man I've become

Stalker, stalker
One day I'll probably fucking kill her, kill her
'Cause if she ever got to know me, know me
She'd probably think I'm fucking crazy, crazy

Yeah, I'm just a fucking psycho, psycho
I'm just another fucking freak show, freak show
Nobody's ever gonna love me, love me
I think I need to fucking let go, let go, oh

Ooh, it's getting so damn hard to be so alone
Ooh, I pretend I'm with somebody I don't know
Ooh, I feel her breath on my shoulder
She's my favorite lover and I don't even know her

Ooh, it's getting so damn hard to be so alone
Ooh, I pretend I'm with somebody I don't know
Ooh, it's getting so damn hard to be so alone
Ooh, I pretend I'm with somebody I don't know

Stalker, stalker

One day I'll probably fucking kill her, kill her
'Cause if she ever got to know me, know me
She'd probably think I'm fucking crazy, crazy

Yeah another fucking psycho, psycho
I'm just another fucking freak show, freak show
Nobody's ever gonna love me, love me
I think I need to fucking let go, let go
