

Hard Driver

Badlands

Tearing down the highway lines
It's a fever that I know
Tonight my burning bridges light the skies
The engine screams for murder
And tonight we're gonna bleed
Pushin' the limit through
On a red light rocket ride

The wheel's on fire, but it's alright, alright
They're gonna burn for me tonight

Hard driver, ridin' alone
'Cause there's no lookin' back
And you're never comin' home
Hard driver, you're on your own
Give it all, hard driver

Turn the ship into the wind
Let the engines roar
Curse the gods and let the metal cry
The eyes of total madness
Are the windows to the soul
You'd be a fool to stop on the edge of lost control

The wheel's on fire
But it's alright, alright
They're gonna burn for me tonight

Hard driver, ridin' alone
'Cause there's no lookin' back
And you're never comin' home
Hard driver, you're on your own
Give it all, hard driver

(Solo)

Ohh
Ohh

Hard driver, ridin' alone
'Cause there's no lookin' back
And you're never comin' home, yeah, yeah
Hard driver, you're on your own
Give it all hard driver
Give it all hard driver
And there's not looking back
'Cause you're never coming home
