

Leave It Behind

Badlands

You've been beaten all your life
and now it's time to get away
leave behind the memories,
all you can do is pray
but your past is like a bad disease
it won't leave you alone
the hate inside is killing you
your heart has turned to stone

you don't need advice or help from anyone
they'll never really understand the pain
what is right or what is wrong
it means nothing to you
because you've been treated bad
hates what you gain

What has become of you
is of nobody's interest
You're all alone when you get up
and it's the same when you get down to rest
a life of fortune with love and friends
is something you don't know
now it's time to leave it all behind
it's time for you to go

The day that you've been buried
no single one did show up
no one even thought of you
as the rain fell on your coffin dropped
the vicar in his final words
said heaven was waiting for you
you already lived your life in hell
so let this dream be true.
