

Weekend

Badlands

Weekend has arrived, all we need is booze
Going to the pub, we've got nothing to lose
Pocket full of money when the night begins
When it's closing time, there is nothing left in

Chorus:

Weekend - All we need is beer
Weekend - Now all the boys are here
Weekend - Really getting pissed
Singing all our favourite songs with a pint and a raised
fist

Sometimes things get out of hand
But we laugh about it in the end
Sick of drinking too much alcohol,
Drinking myself out of control
Every week we do it over again
Rock'n'Roll is our masterplan
A ritual which never ends,
Drinking beer with all our friends

Chorus

Chorus
