

# Above You Below Me

Badly Drawn Boy

Don't want to give  
Don't want to steal  
Don't want to be anything I'm not  
You take answers  
I give questions  
Like some rolling monologue  
Want to be the one to say  
That today could be the day  
A day to believe in what you know  
Is what you know

I will take you as you are  
Please accept me as I am  
Find your lonely life bizarre  
I know it's above you  
I know it's below me

All this and more

Don't want to live life in your shoes  
I don't feel I know the way  
Feeling you  
Giving me directions  
I don't need  
Up above and round we go  
First it's fast and then it's slow  
Could you connect with my intellect

I won't take you as you are  
Please don't take me as I am  
Find your lonely life bizarre  
You see this in love  
You see this in life

THrow an all year round reception  
For a love with no connection  
Knowing you knowing my  
Ignorance to modern life

I know it's above me  
I know it's below you  
I know it's above me  
I know it's below you

I will take you as you are  
Please accept me as I am

Find your lonely life bizarre  
I know it's above you  
I know it's below me

I will take you as you are  
Please accept me as I am  
There'll be something in the wind  
To show us we're right  
And tell us we're wrong

I want to know more
