

Colours

Badly Drawn Boy

I see colours

When the lights are green
You're safe to go
If you know that orange
Is the only child of red and yellow
And you dance the blues
As the lights go down
Just take the music, you can use it
Have it on in the background

Oooh I feel good
I wasn't sure that I would
Since we don't see things the same
What a waste
I like candyfloss, you say you hate it
It melts before you get to the taste

I see colours, the sound of your heartbeat
Running through my mind
I hear colours
From the second our hearts meet
Music to my eyes

All the lights are green
Move straight ahead
You know that purple
Is the only child of blue and red
I feel good
I wasn't sure that I would
It's clear we don't feel the same
What a waste
I like candyfloss, you say you hate it
It melts before you get to the taste

I see colours, the sound of your heartbeat
Running through my mind
I hear colours
From the second our hearts meet
Music to my eyes
I see colours
I see colours
It melts before you get to the taste
It melts before you get to the taste
It melts before you get to the taste
It melts before you get to the taste

I see colours, the sound of your heartbeat
Running through my mind
I hear colours
From the second our hearts meet
Music to my eyes
