

## Epitaph

**Badly Drawn Boy**

Please don't leave me wanting more  
I hope you never die  
There's no need to say why  
Just promise that you'll try  
To give me all you can  
I'll never ask for more  
There's a new life thru the door  
A cradle rocks and falls  
Cements the melody  
Our troubles passing

Through decaying, simple times  
I'll tread on your tail with pride  
C'est maintenant decide  
I've nothing better

Please don't leave me wanting more  
I hope you never die  
There's no need to say why  
Just promise that you'll try
