

## One Plus One Is One

Badly Drawn Boy

Back to being who I was before  
Opened all the doors you tried to close  
And how did that make me feel  
I cracked the ceiling I stared at it too long  
Tried to right the wrongs  
Reverse the flow Now everybody's waiting outside  
Trying to feel what's going on inside  
Tried to turn the tide and we failed  
As the past meets the future  
It gets clearer that it all boils down to love and peace

Give me some peace Please give me some peace  
Why can't you see that one plus one is one  
Much greater than the sum of the parts  
And nobody's waiting outside  
I felt deceived I hid behind the sun  
Its time to take the gun out of life

Every scene is like the one before  
Its time to close the doors on myself  
As the past becomes the future  
It gets clearer that it still boils down to love and peace

Give me some peace  
Please give me some peace

Back to being who I was before  
Open up your door, hold me now  
Give me some peace, hold me now  
Give me some peace, hold me now  
While everybody's waiting outside
