I fall asleep to the sound of morning coming
Have you forgotten about me again today?
How could you be alright so easily?

You were always unchanging but you left
And I couldn't believe it, it was hard
But I'm sure we'll slowly forget about each other
Even the words I love you will have no use

I'm sorry, I was selfish
I just tried to keep you by my side
With the reason of love
Yes, I didn't know the most important thing
If I love you, you should always be happy

I'm sure I'll miss you, I can't help that
But I won't make things hard for you
I'll be in a lot of pain, cry until I get exhausted

As I look for you
But don't mind me
It'll just be a moment

It's alright, I'll just be right here
It has nothing to do with you
I can keep this love by myself
I love you, that's never changed for a moment
I will love even your empty seat
As I live

I'm sure I'll miss you, I can't help that
But I won't make things hard for you
I'll be in a lot of pain, cry until I get exhausted
As I look for you
But don't mind me
It'll just be a moment

Yes, I may seem like a fool
But I'll be cherishing our memories
And protecting them by myself

I'll be in a lot of pain, cry until I get exhausted
As I look for you
But don't mind me
This goodbye will just be a moment
