

Do What You Do

Baeza

Dancing on a player
Got me feeling your body (feeling your body)
I just came to party
But I think that you got me (I think that you got me)
Do what you do
Yeah I like you
Do what you do, do what you do, do what you do
Yeah yeah yeah

I came with my whole clique
True religion on my whole fit
Brought a whole lot of smoke in
Told my homies keep it rollin
We just livin for the moment
We just smokin on this potent
She just keep a steady motion
She been sippin on that potion
Hennesy I got her rope on
Got her wetter than the ocean
I bet she wishin that she hop on
She the one I'm leavin with
But she ain't even see me yet
Told her she ain't even gotta bring a friend
Told her she just gotta hop up in the Benz
Yeah let's get it in

Dancing on a player
Got me feeling your body (feeling your body)
I just came to party
But I think that you got me (I think that you got me)
Do what you do
Yeah I like you
Do what you do, Do what you do, Do what you do
Yeah yeah yeah

I'm just sippin on the Henny
Gold on me looking like an Emmy
Pussy I'm missing with the fanny
Still young but I'm ballin so they envy
Long swisha by the case
We throw the money up sent the base
Shawty she ain't even from the states
Said she wanna put it in my face
Hey, said she wanna ride in the Rang
Hey, my niggahs still rhyme with a K
Hey, I've been countin money all day
Hey, I've been countin money all day
Hey, come and kick it with the squad
Niggahs they be tryin too hard
Girl you need a niggah on this job
All night workin like a graveyard come on

Dancing on a player
Got me feeling your body (feeling your body)
I just came to party
But I think that you got me (I think that you got me)
Do what you do

Yeah I like you
Do what you do, Do what you do, Do what you do
Yeah yeah yeah

Dancing on a player
Got me feeling your body
I just came to party
But I think that you got me
Do what you do
Yeah I like you
Do what you do, Do what you do, Do what you do
Yeah yeah yeah
