

# I Know Better

Baeza

Yeah yeah  
Let me drink  
Let me drink  
My money long like a limousine  
Keep it hundred like a centipede  
I've been drinking all this hennessy  
Trying to duck a rack of tennessey's  
Don't you know I got the recipe  
Tryin build me up some equity  
Tryin build me up a legacy  
So they don't forget about me  
I just wanna see the best of me  
They see when I get to test me  
Always thank the lord for blessing me  
The one that's never second guessing me  
Best of wishes for my enemy  
Mentally I'm in the right place  
Like a dealer in the tri state  
Counting money in my driveway  
I got the pool so now I tell them that its my way or the highway  
Gotta do this shit the right way  
Can have no random times in my space  
Hanging in there like a promay  
We're so cold bought them iceskates god damn

Need no help with all of this fake shit in my face  
They only want me cause they wanna take my place  
Who they foolin  
I know better  
Than to trust these niggas oh  
Need no help with all of this fake shit in my face  
They only want me cause they wanna take my place  
Who they foolin  
I know better  
Than to trust these niggas oh  
I don't trust these niggas no no

I'd rather be riding so low  
Slow more when I'm sipping that pour  
Still young when I'm getting that dough  
That ain't never gonna change  
I still ride with that thing  
Cause ain't no love in this game  
They gonna flip for some change  
They won't miss for their pay  
Got my mind on the cash  
120 on the dash  
She said come make it fast  
I don't even taste bad  
I gotta cut this record so I'm heading to the lab  
You know it's man work if you wanna be the man  
I'm up with the moon  
Colour I'm mocking is tiny maroon  
I'm getting immune to the fuckery  
You know these home niggas can't fuck with me  
Limbo the way that they duckin me  
I know that misery need company

But I'm laughing my way to the bank  
Just put a four on my drank  
Get these niggas out my face  
Watch me slide in a race  
I'll be working all night  
On the ground for that pay  
Pay attention to a mind will never  
You know these niggas like to stay together  
Keep it one double low forever  
Gotta fuck with some of my only devours yeah yeah

Need no help with all of this fake shit in my face  
They only want me cause they wanna take my place  
Who they foolin  
I know better  
Than to trust these niggas oh  
Need no help with all of this fake shit in my face  
They only want me cause they wanna take my place  
Who they foolin  
I know better  
Than to trust these niggas oh
