

In This Life

Bag Raiders

In this life I just wanted to love you
And in this life I just wanted to love you
And in this life I just wanted to love you
And in this life I just wanted to love you

In this life I just wanted to love you
And in this life I just wanted to love you
And in this life I just wanted to love you
(In this life, in this life)
And in this life I just wanted to love you
(In this life, in this life)
And in this life I just wanted to love you
(In this life, in this life)
And in this life I just wanted to love you
(In this life, in this life)

(In this life, in this life
In this life, in this life
In this life, in this life)
