In This Life

Bag Raiders

In this life I just wanted to love you And in this life I just wanted to love you And in this life I just wanted to love you And in this life I just wanted to love you

In this life I just wanted to love you And in this life I just wanted to love you And in this life I just wanted to love you (In this life, in this life)
And in this life I just wanted to love you (In this life, in this life)
And in this life I just wanted to love you (In this life, in this life)
And in this life, in this life)
And in this life I just wanted to love you (In this life, in this life)

(In this life, in this life In this life, in this life In this life, in this life)
