

# Never Forget

Bag Raiders

You taught me love  
For the first time  
Stuck in my heart  
I never let you down  
I'm I wanna stay with you forever  
And never forget you  
Never forget what you've done  
Where would I be without you?

You taught me love  
For the first time  
Stuck in my heart  
I never let you down  
I'm I wanna stay with you forever  
And never forget you  
Never forget what you've done  
Where would I be without you?  
(Be without you, be without you?)

For the first time  
Stuck in my heart  
Never let you down  
I'm I wanna stay with you forever  
And never forget you  
Never forget what you've done  
Where would I be without you?  
(Be without you, be without you?)
