

Crazy Over You

Baha Men

I fell in love with you,
T'was like a dream come true
And my love for you will never end oh no
Was such a special night
You lay right by my side
And I told you things I never told a soul

And now that I have you babe
I promise I'll never leave
'cause you are the only one that makes my life complete

And I'm,
Crazy over you,
I don't know what to do,
I'm Crazy over you

A love that never ends
You're more than just a friend
And my heart and soul I'll always give to you,
The only in my life
Someday you'll be my wife,
And I'll be with you until the end of time

And now that I have you babe
I promise I'll never leave
'cause you are the only one that makes my love complete

And I'm,
Crazy over you,
I don't know what to do,
I'm Crazy over you

It doesn't matter what you say or do
Because I love you (And I know you love me too)
Love me, kiss me, and hold me in your arms
Let's me know you're crazy over me
And I'm Crazy over you
'cause you are the only one,
To make my life complete

And I'm,
Crazy over you,
I don't know what to do,
I'm Crazy over you
