

Any Place

Bahamas

I'm looking for any place
To drink too much and make mistakes
I'm thinkin' 'bout those good old days
I'm looking for any place

I had the chance to make you mine
I had the chance and changed my mind
If I could just go back in time
I wouldn't go any place

Well I know how hard it can be
To live inside of memory
To hate the person that you see
When you see yourself
And to think that you have moved on
From all the love that's done you wrong
Comes back to you before too long
To show itself

I'm looking for any place
To drink too much and make mistakes
I'm thinkin' 'bout those good old days
I'm looking for any place

I had the chance to make you mine
I had the chance and changed my mind
If I could just go back in time
I wouldn't go any place

Well you lead me here by the hand
With the promise of a promised land
Now my master has no master plan
To see us all through
As they say the show must go on
Can't keep my public waiting long
Can't live my life inside a song
'Cause every song ends

I'm looking for any place
To drink too much and make mistakes
I'm thinkin' 'bout those good old days
I'm looking for any place

I had the chance to make you mine
I had the chance and changed my mind
If I could just go back in time
I wouldn't go any place
