Not Cool Anymore

Not cool anymore Not even sayin' that I was before I'm hangin' on to my youth Gettin' long in the tooth Tryin' not to keep score

Not cool anymore Maybe I was when I was twenty four Seems to me that there used to be People to see All around me only open doors

Everyone around me seems To have forgotten all about their dreams I guess they must've lied When they said the music had died No, the music just forgot about me Not cool anymore

Not cool anymore Still a lion but I've lost my roar Let my shoulders down Grew into a sound I don't worry about being a bore I'm not cool anymore I'm not cool anymore **Bahamas**
