

Second Time Around

Bahamas

All the wasted wine at the wedding
Like we needed more steak knives or king size bedding
Walking down the aisle to Otis Redding
The second time around

Married once before who could forget it
But I stayed out every night and now regret it
A love could grow again if we let it
The second time around

The second time around
I'll do things differently
I promise that I'll try
To let sleeping dogs lie
The second time around

I know that I don't do what's expected
Cause I couldn't stand to be twice rejected
So if you ask me straight I'd just deflect it
The second time around

The second time around
I'll do things differently
I promise that I'll try
To let sleeping dogs lie
The second time around

Give me one more last chance
One more second first chance
The second time around
