

Someone Forever

Bahamas

Can you teach me
To love someone forever?
Well it's been that long you stuck around
To love someone forever

It's years on top of years I know
It's one love watching another go away

Somewhere in that silence
Is every word I want to say
Has it been that long you stuck around?
Take it day by day

It's years on top of years I know
It's one love watching another
Go away, away, away
